

The logo for Primax Energy features the word "Primax" in a bold, black, sans-serif font. The letter "x" is stylized with a diagonal slash through it, colored in orange and black. Below "Primax", the word "ENERGY" is written in a smaller, black, all-caps, sans-serif font, with wide letter spacing.

Primax
ENERGY

The background of the page is a nighttime cityscape with light trails from traffic and buildings. A large, diagonal yellow and orange graphic element cuts across the scene from the top left towards the bottom right. The city lights are in shades of blue, white, and orange, creating a dynamic and energetic atmosphere.

Diesel / Natural Gas / LPG Generating Sets
Packed with Power for Engineered Performance
(From 10Kva to 440Kva)

Long Life, Fuel Efficient, Compact, Environment Friendly Energy Solutions

Reliable, Uninterrupted, Economical Power is indispensable, prime & foremost requirement for day to day living anywhere in the world, for travel & leisure activities, for every Institution & Organization, for every process & manufacturing industry ,for Trade & Commerce & above all most critical & important for life saving services.

Primax Energy manufactures Diesel /Natural Gas / LPG Generating Sets powered by world leading Engine manufacturers & coupled with durable best quality alternators. Primax Energy provides the optimum & competitive energy solutions for all applications whether it is Standby / Emergency Power or uninterrupted continuous power for extended periods of time.

Primax Energy Gen Sets fueled by Diesel / Natural Gas / LPG prime movers coupled with different sizes & specs alternators are available to deliver power at different voltages & frequencies to cope with different applications.

Complete Drop-in Power Solutions from Design to Applications

Primax Powers Productivity

- State of the Art Manufacturing
- Quality Products
- Emission Certified Applications
- After Sales Product Support
- Customized Solutions
- Global Sourcing

Powerfull, Responsive, Reliable
Diesel Innovation

Diesel Generating Sets

(From 20Kva to 440Kva)

Primax Energy uses John Deere Power Tech Industrial Diesel Engines coupled with Meccalte Alternators to manufacture branded Diesel Generating Sets from 20Kva to 440 Kva.

Advanced Technology, Digital Master Control Primax Diesel Gen Sets are not only perfect for trouble free / reliable and durable Industrial independent running application but also has built in provision for paralleling operation with other Gen Sets or Power Grid

Diesel Power Product Range

PRIMAX MODEL	POWER (KVA)		ENGINE		ALTERNATOR		DIMENSIONS LXWXH (M)	WEIGHT (KG)

Fuel Efficient

The Best-in-class Fuel Economy for John Deere Power Tech Plus Engines

Emission Control

Latest Technologies used to meet stringent emissions regulations in all applications

Primax Technology

Advanced Engine Technology with Advanced Electronic controls for optimum performance.

Product Support

Easy, Fast & Simple Access to Parts & Services whenever & wherever you need it

Warranty

Two Years standard Warranty for all Engines & Components.

Save Money Protect Environment Gas Generating Sets

(From 10Kva to 130Kva)

Primax Gas Generators are engineered with the latest technology to deliver peak operating performance. USA made General Motors Engines are coupled with Mecc Alte Alternators to manufacture state of the art Gas / LPG Gen Sets with Digital Master Control & optimum Fuel economy for delivering Reliable / Economical Power for all Standby or Prime Power applications.

Natural Gas/ LPG Power Product Range

PRIMAX MODEL	POWER (kVA)		ENGINE		ALTERNATOR		DIMENSIONS LXWXH (M)	WEIGHT (KG)

GM130M	130	120	General Motors	Vortec 8.1L	Mecc Alte	ECP34 2S/4	2.80X1.12X1.53	1500

- Operate on a constant, low-cost fuel source
- Ideal for extended run and prime power applications
- No requirement for on-site liquid fuel storage
- Low-pressure system eliminate expensive compressors
- Perform on pressures as low as 5" of water column
- UL 2200 listing on most gas models

Engines & Alternators

Maximum Performance, Reliability, Low Maintenance Cost & Fuel Economy with Environment Protection

JOHN DEERE

John Deere Diesel Engines (21----456 KW)

Power Pack Industrial Engines for Total Performance

Primax uses world's leading engine manufacturer John Deere as the prime mover for their whole range of Diesel Generating Sets

Since 1949, John Deere has designed, developed & manufactured nearly 6 Million Diesel Engines. After 70 years since the inception, People still believe in the vision of John Deere.

- Compact/Maximum Power / Minimum Space Engines
- Every component fine tuned & tested before leaving the factory.
- Reliability Tests

WE POWER HOMES, LIFT CONTAINERS, MOVE DIRT, CHIP TREES, PUMP OIL, AND DELIVER PACKAGES —AND THAT'S JUST THE BEGINNING.

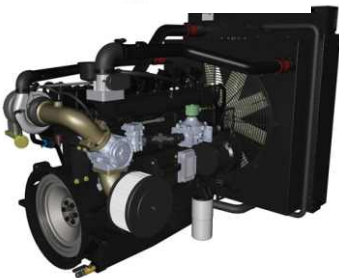

GM Gas Engines (21----456 KW)

Low Cost Energy Standby or Prime

Primax energy designs, engineers and manufactures emission certified alternatively fueled (Natural Gas, LPG, Bio Gas) Generating Sets using General Motors USA fuel flexible, compact durable, high performance engines. Tailor made Clean Tech Engines ranging from 0.97 Ltrs to 22 Ltrs of displacement are used to build state of the art different capacity gen sets.

- Compact/Maximum Power / Minimum Space Engines
- Every component fine tuned & tested before leaving the factory.
- Reliability Tests

Mecc Alte Alternators

(1 to 3,000 Kva)

60 Years of Great Power

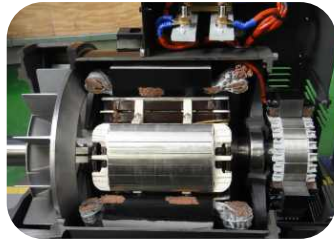

Steady & Stable current for all Primax Gen Set applications is managed through state of the art World Leading Mecc Alte Alternators.

With 60 years of experience in the electro-mechanical field, Mecc Alte is today at its Height in the world production of Synchronous Alternators.

With ISO14001 certification & Six Manufacturing Facilities in different parts of world, Mecc Alte manufactures state of the art world's best standard & customized Alternators for different applications, voltages & frequencies.

Performance**

Turn Key Energy Solutions by Primax

Primax Energy can render Tailor Made Energy Solutions as per customer's requirements with different optional items:

Weather Proof /Super-Sound Proof Enclosures /ISO Standard Containers

Mobile Gen Set Trolleys..... Reliable Power at your Doorstep

AMF/ATS/Synchronising Panels.....Automatic/Multiple Genset Power Control

LPG Conversion Kits.....NO Gas Load Shedding

Specialized Gen Set Overhaul Tool Kit

Water Separator Fuel Filtration for Prime & Standby Gen Set Applications

Service / Maintenance / Operation Manuals
